

PLEASE SAVE THE DATE!

The Washtenaw County Opioid Summit

Hosted by the Washtenaw Health Initiative Opioid Project

Monday, October 15, 2018

**Washtenaw Community College
Morris Lawrence Building**

4800 E Huron River Dr, Ann Arbor, MI 48105

**Afternoon session
for professionals**

1:00 - 5:00 p.m.

- Hear about the current state of opioid prescribing legislation and implementation in Michigan
- Learn about treatment resources and patient communication tools like Motivational Interviewing
- Get trained in the use of Naloxone

**Evening session
for the general public**

5:30 - 8:30 p.m.

- Understand addiction and recovery facts
- Hear from people who have been directly affected by addiction
- Learn about different methods for safe storage and use of opioids

Food and refreshments will be provided to all participants.

Both sessions are free. Please RSVP.

Evening tickets: <https://www.eventbrite.com/e/the-washtenaw-county-community-opioid-summit-tickets-49495219534>

Much has been done in Washtenaw County to address the opioid epidemic, yet the death toll continues to rise. Multiple factors including opioid misuse, limited treatment resources/access and gaps in knowledge contribute to this problem. This summit will bring together addiction professionals, providers and the community to educate, increase awareness, destigmatize and cultivate community driven solutions to opioid misuse and overdose.

Afternoon Professional Development Session

Target audience

Addiction professionals, prescribers, and service providers who work with opioids and/or people who are currently using or have used opioids

Learning objectives

Understand the current state of the opioid epidemic in Washtenaw County

- Participants will be able to describe past and current country trends in the opioid epidemic

Understand facts vs. myths about recovery

- Participants will be able to identify multiple paths to recovery
- Participants will be able to distinguish that recovery from SUD is multifaceted, with social, cultural and medical elements

Outline various treatment resources for substance use disorder in Washtenaw County

- Participants will be able to identify the scope of SUD services available in Washtenaw County and process for referrals to treatment
- Participants will be able to describe the role of payment and insurance coverage in locating appropriate treatment
- Participants will be able to use patient preference and individual psycho-social needs in determining the best SUD treatment

Understand communication tools and methods for working with SUD patients

- Participants will be able to articulate the basic principles of Motivational Interviewing and apply it to their practice
- Participants will be able to articulate Cognitive Behavioral Health tools and apply it to their practice
- Participants will be able to articulate the role of a Bio/Psycho/Social screening in treating patients and apply it to their practice

Review current state of legislation about opioid prescribing, understand the logistics of implementation

- Participants will be able to articulate the requirements and consequences of the recently passed legislation regarding opioid prescribing and apply it to their practice
- Participants will be able to incorporate new tools and standards into workflow and practice
- Participants will be able to apply the most recent regulatory actions regarding implementation of the new laws to their practice

Review the administration of naloxone for an opioid overdose

- Participants will be able to identify an opioid overdose and administer naloxone
