Returning from travel

Within Michigan

- There are currently no required restrictions after Michigan travel.
- Coronavirus is still circulating. Reduce risk by wearing a face covering, keeping 6 ft distance AND cleaning hands frequently.

From Another State

- There are currently no required restrictions after out-of-state travel.
- Many states are experiencing larger outbreaks than Michigan.
- We recommend staying away from others for 14 days after travel.
- Wear a face covering if out & get tested if ANY symptoms appear.

From Another Country

- Self-Quarantine for 14 days is recommended, but not required.
- Wear a face covering if out & get tested if ANY symptoms appear.
- Need more guidance? Contact us at 734-544-6700.

Reduce Risk

- Limit close contact with people outside your household.
- Spend your time outdoors.
- Keep 6 ft distance & wear a face covering indoors or outdoors, if near others.
- Limit airplane, train, or bus travel.
- If you have ANY symptoms, don't travel & stay away from others.
- If you are working in-person, tell your employer about your travel.
- Get tested if you have ANY unusual symptoms.

There are currently no required restrictions after out-of-state travel. Many states are experiencing larger outbreaks than Michigan. We recommend staying away from others for 14 days after travel. Wear a face covering if out & get tested if ANY symptoms appear.
