

## PUBLIC HEALTH EMERGENCY ORDER IN RESPONSE TO COVID-19 PANDEMIC

### ADDITIONAL LIMITS ON SOCIAL GATHERINGS AND ORGANIZED EVENTS OCCURRING UNDER APPLICABLE EXECUTIVE ORDERS WITHIN THE CITIES OF ANN ARBOR AND YPSILANTI

The Washtenaw County Local Health Officer issues this Order pursuant to the Michigan Public Health Code, MCL 333.2453 as it has been determined that it is necessary to protect the public health from further spread of COVID-19 within Washtenaw County.

The novel coronavirus (COVID-19) is a respiratory disease that can result in serious illness or death. It is caused by a new strain of coronavirus not previously identified in humans and easily spread from person to person. There is currently no approved vaccine or antiviral treatment for this disease. On March 10, 2020, the Michigan Department of Health and Human Services identified the first two presumptive-positive cases of COVID-19 in Michigan. On that same day, Governor Gretchen Whitmer issued Executive Order 2020-4 declaring a state of emergency across the state of Michigan. On March 12, 2020, the first presumptive-positive cases of COVID-19 was reported in Washtenaw County.

In response to the widespread and severe health, economic, and social harms posed by the COVID-19 pandemic, the Governor issued Executive Order 2020-33 on April 1, 2020. This order declared both a state of emergency and a state of disaster across the state of Michigan. Governor Whitmer has reissued the declaration of emergency on several occasions considering the continuing threat posed by the pandemic.

On July 17, 2020, Governor Whitmer issued [Executive Order 2020-153](#) strengthening requirements for wearing masks, including when outdoors and unable to consistently maintain a distance of six feet or more from individuals who are not members of their household. On July 29, 2020, Governor Whitmer issued [Executive Order 2020-160](#) (Amended Safe Start Order), which extended restrictions crucial to addressing the pandemic, including limits on social gatherings and organized events. This EO 2020-160 limits outdoor social gatherings and organized events to 100 persons, with further direction that these events must be designed to ensure that individuals not from the same household maintain social distance of at least 6 feet.

Washtenaw County has reported a total of 2,371 confirmed cases of COVID-19 to date. County data shows that in the first two weeks of August there was a 12% increase in the proportion of cases among 18 to 24-year-olds compared to the month of July. In the past month, COVID-19 cases in those 30 years of age and younger represented 51% of reported cases in Washtenaw County. This trend of an increasing percentage of young people becoming infected with COVID-19 is present in many states across the country. With thousands of students returning to two large universities in Washtenaw County, many from states with high rates of COVID-19, living in congregate settings, and traditionally disposed toward socializing in large groups, further restrictions need to be put in place to prevent outbreaks related to large social gatherings and organized events. Large social gatherings have demonstrated an increased public health risk with potential for further outbreak. including super-spreading events.
