

Washtenaw County Community Mental Health

FIRE PREVENTION AND EVACUATION PLAN – (policy)

PURPOSE

- Provide an ongoing program designed to establish and maintain fire safety.
- Provide direction to staff in order to enhance fire safety knowledge and responsibilities.

POLICY

- Procedures are established to identify and maintain all applicable required features of fire protection and National Fire Prevention Association (NFPA) Life Safety Code Standards
- Procedures are established for inspecting, testing, and maintaining all related fire-alarm, fire-detection, and fire extinguishing systems.
- Plans are established that address appropriate staff education, training, and response to a fire emergency.
- This policy is developed to comply with applicable standards such as but not limited to: Joint Commission, Contractual requirements; Michigan Mental Health Code; third-party payer requirements; county, state, and federal regulations and laws; and Washtenaw County standards, policies, and procedures.
- All WCCMH occupied buildings shall be inspected to Fire Safety Code Compliance by Washtenaw County or its designee.
- All WCCMH occupied buildings shall document preventative maintenance and testing of their fire detection systems. This documentation will be done by the Washtenaw County Facilities Department or their designees and address the following:
 - If present, battery operated smoke detectors shall be tested annually.
 - Portable fire extinguishers shall be visually inspected monthly by the site safety representatives and annually by a qualified professional set up by Washtenaw County Facilities Department or its designee.
 - Annual inspections shall be performed by qualified professionals on the integrated fire alarm systems by Washtenaw County Facilities Department or its designee.
 - Fire drills are to be conducted on an annual basis. Documentation of the drills is to be made on the Washtenaw County Risk Management Drill Evaluation Form and maintained in the site specific safety manual.

- Each site shall develop fire evacuation plans and conduct annual drills that at a minimum test staff knowledge of (Exhibit A)
 - Use and function of fire alarm systems
 - Transmission of alarms
 - Containment of smoke and fire
 - Fire extinguishers
 - Specific fire response duties
 - Preparation for building evacuation
