Section III: RFP Background and Introduction

- A. **Introduction:** This Request for Proposals (RFP) is intended to solicit proposals from bidders capable of satisfying Washtenaw County's needs for software for licensing, permitting and code enforcement in the Environmental Health, Building Inspection and Soil Erosion Control divisions of Public Health and in the Office of Water Resources. **Bidder's responses will be evaluated and ranked based on the criteria described in this RFP.** If a system is available that meets the County's needs, the County may then enter into contract discussions with the selected bidder. In addition to soliciting written responses, this document provides information to assist bidders in preparing their responses and facilitates the subsequent evaluation and comparison process. In that regard, this RFP:
- a. Provides information essential to soliciting meaningful recommendations and realistic commitments from the bidders;
 - b. Specifies the desired format and content of proposals in response to this RFP;
 - c. Outlines the County's evaluation and selection procedures;
 - d. Establishes a schedule for the preparation and submission of proposals in response to this RFP; and,
 - e. Establishes a performance standard for the selected bidder.

This RFP and the selected proposal in response to this RFP will be incorporated into the contract resulting from this solicitation; provided, however, that the contract may contain terms different from or in addition to this RFP and the successful proposal. For purposes of this RFP, the term "vendor," "offeror," and "bidder" are considered to have the same meaning.

- B. **About Washtenaw County:** Washtenaw County is located in southeast Michigan, covering an area of 720 square miles. Its 27 cities, villages and townships are home to about 354,000 citizens in urban, suburban, and rural settings. This mix of different settings provides many opportunities for education, recreation, business, agricultural, and home life. The two largest cities are Ann Arbor and Ypsilanti, homes to two large universities - the University of Michigan in Ann Arbor and Eastern Michigan University in Ypsilanti.

The County government is responsible for providing a wide array of governmental services for its citizens including building inspections, planning and community development, economic development, parks and recreation, libraries/culture, police and fire services, emergency medical services, courts, and health and social services.

The County implemented its existing permitting system, Accela Tidemark Advantage, beginning in 2000. Following the initial implementation with the Building Department, the County's two other permitting departments implemented the system. In 2002 the County implemented Accela's eConnect to allow customers to view permit status's online. The legacy permitting system has served the County well; however, it is nearing the end of its lifecycle with minimal updates being provided from the vendor. This is a primary driver for replacing it

BID #7145 Licensing, Permitting & Code Enforcement Solution

with a new system as the County is interested in a solution to unify processes and grow with its needs.

The County also utilizes a Selectron IVR system that interfaces with the Tidemark system for scheduling inspections.

Food inspections are currently done using the Sword Solutions product and the County is looking to replace this solution as well.

- C. **Project Objectives:** Washtenaw County is planning to replace its current permitting software system with a system that will allow for integration across its permitting and inspection areas, as listed below:
- a. Building Inspection items that are currently tracked in the Tidemark system – Building, Code Enforcement, Electrical, Mechanical, Plumbing
 - b. Building Inspection Needs – Contractor Licensing
 - c. Environmental Health items that are currently tracked in the Tidemark system – Pollution Prevention, Well Inspection (Commercial, Private & Type II), Sewage Inspection (Commercial & Private), Time of Sale, Pool Inspection, Pool Water Sample Tracking, Well Water Sample Tracking
 - d. Environmental Health Needs – Food Inspection (currently in Sword Solutions), Radon, Body Art, FOIA, Campground Inspections, DHS (Child Care, Foster Car, Adult Foster & Group Home) Inspections, Temporary Food License / Inspections, Restaurant Plan Review, Mobile Home Park Inspection, Privately Owned Community Sewage Systems, Contractor Certifications, Maintenance Provider Certification (O&M), Time of Sale Inspector Certification / Training, Bathing Beach Water Sample Tracking
 - e. Soil Erosion items that are currently tracked in the Tidemark system – Soil Erosion & Code Enforcement

The reasons for seeking one comprehensive system are as follows:

- a. Utilizing one system provides a central location for complimentary services received by Washtenaw County citizens and visitors.
- b. Utilizing one system allows us to draw our personnel efficiencies.
- c. Not having to train on multiple systems
- d. Able to pull all relevant data through one system to make customer transactions easier for both the end user and the customer

Environmental Health provides mandated services to the residents & visitors of Washtenaw County, and therefore it is in the citizens' best interest that the County utilize an integrated permitting system.

On-going Hosting Services Washtenaw County is considering both a County-hosted and a Vendor-hosted solution. It is optional, but not mandatory, for Vendors to provide information on both solutions as part of their RFP response. If a Vendor does propose a Vendor-hosted solution, any differences from a County-hosted solution must be clearly delineated in the appropriate sections of the RFP response.

BID #7145 Licensing, Permitting & Code Enforcement Solution

The County reserves the right to cancel this solicitation or to change its scope if it is considered to be in the best interest of the County.

- E. **RFP Schedule of Events:** The following RFP Schedule of Events represents the best estimate of the schedule the County will follow. The County has performed extensive planning work and intends to meet the dates set forth below. Bidders are encouraged to hold the demonstration dates listed. The County has an aggressive schedule for implementation and must stay on the schedule in order to meet its implementation goals.

In the event mediation is unsuccessful; either party may exercise its legal or equitable remedies and may commence such action prior to the expiration of the applicable statute of limitations.
- M. **Policy Compliance:** The Vendor agrees, as a condition of being awarded this Agreement, to require each of its agents, officers and employees to abide by the County's policies prohibiting sexual harassment, firearms and smoking, as well as all other reasonable work rules, safety rules or policies (including the County's information security policy) regulating the conduct of persons on County property at all times while performing duties pursuant to this Agreement. This prohibition also applies to the Bidder's employees, agents, and subcontractors. On termination of the agreement, the Bidder will promptly return any confidential information in its possession to the County.

- A. **Evaluation Process:** The County’s Evaluation Committee will initially review and evaluate each Proposal received to determine the Bidder’s ability to meet the requirements of the County. The evaluation criteria described in Table 04 will be the basis for evaluation.

The Evaluation Committee will determine the Bidders best suited to meet the needs of the County based on the scoring of the evaluation criteria. These Bidders will form the “Bidder Short List.”

The County, at its sole discretion, reserves the right to have system demonstrations with those Bidders on the Bidders Short List, or any other Bidders. Demonstrations will be conducted at County offices. Time limitations and demonstration requirements will be provided with the notification. Each Evaluation Committee member will score the demonstration.

A Pre-Demonstration Bidders Teleconference will take place for those Bidders that have been short-listed. The demonstration schedule and script will be provided to these Bidders in advance of the Pre-Demonstration Bidders teleconference and Bidders will have an opportunity to review the format of the demonstrations and ask questions related to procedure and specific demonstration scenarios. This meeting will be conducted via teleconference.

The County may elect, at its sole option, not to conduct discussions or demonstrations with Bidders. Demonstrations will involve a scripted demonstration as well as a demonstration “lab.”

The County may request additional information or clarification of Proposals and hereby reserves the right to select the particular response to this RFP that it believes will best serve its business and operational requirements, considering the evaluation criteria set forth above.

- B. **Evaluation Criteria:** The Evaluation Criteria in the following table the basis by which each Proposal will be evaluated, measured, and ranked. BID #7145 Licensing, Permitting & Code Enforcement Solution

customization, and training. Typically, implementation service costs are provided as “not to exceed” estimates and the County will be charged for services as incurred.

The County will pay eighty-five percent (85%) of the implementation service costs on a monthly basis as incurred on the Project. Fifteen percent (15%) of the implementation service costs will be retained (as a “hold-back”) until successful completion of the associated Project phase. The fifteen percent (15%) hold-back will be paid to the Selected Vendor upon County acceptance of the system (see above for associated test criteria) and sign-off at phase completion.

A detailed cost report for the proposed solution should be submitted with the response. This report should note all costs associated with the proposed solution as well as any additional costs noted within Attachment A, Functional and Technical Specifications. It is important to note the following:

- At a minimum, the detailed cost report should include Software, Interface/Integration, Data Conversion, Implementation, Training, Maintenance (with schedule) and any other Professional Service Cost not already included.
- The County will not consider time and materials pricing. Bidders shall provide firm and fixed pricing based on the functionality described. For each item, indicate if the cost is one-time, annual, or other;
- The Bidder shall provide price information for each separate component of the proposed solution, as well as the costs of any modifications;
- In the event the product or service is provided at no additional cost, the item should be noted as “no charge;”
- In the event the product or service is not being included in the Proposal, the item should be noted as “No Bid;” and,
- Bidder shall make clear the basis of calculation for all fees.

All travel expense costs must be included in the Bidder’s fixed price cost. The County will not make a separate payment for reimbursable expenses. The County shall not be liable for additional travel costs incurred due for any reason outside the County’s control.

- 3) Annual Maintenance Cost:** Annual maintenance costs include the annual maintenance and support fees for the application environment. The County expects maintenance payments to begin one year after the first module of the software is in production. The County expects software maintenance costs will not increase in the first five years after installation.

Section VIII: Sample Standard Provisions for Contracts

If a contract is awarded, the selected contractor will be required to adhere to a set of general contract provisions which will become a part of any formal agreement. These provisions are general principles which apply to all contractors of service to Washtenaw County such as the following:

MASTER PROFESSIONAL SERVICE CONTRACT CR _____

In consideration of the promises below, the parties mutually agree as follows:

ARTICLE I - SCOPE OF SERVICES

A. County desires to retain Contractor as an independent contractor to provide certain services and/or to develop products under the conditions set forth in this Agreement, and Contractor desires to provide those services and/or products.

B. For each project under this Agreement ("Project"), County and the Contractor will collaborate on a written statement of work ("SOW") which shall be attached to this Agreement and shall contain a description of one or more of the following, as applicable:

(1) the functional specifications ("Specifications") for the computer software or any other product(s) to be created and delivered by Contractor ("Products");

(2) the services to be provided by Contractor ("Services");

C. During any Project, County may revise the Deliverables, or the time frames associated with them. If County elects to make revisions, the parties will either reach agreement on the new fees, time frames and Deliverables, or continue under the original applicable SOW. All changes to the SOW and/or the Deliverables must be done in writing and signed by both the County and the Contractor.

D. After Contractor has provided County with notice that a Deliverable has been completed, County shall have a reasonable agreed-to time to review and/or test such Deliverable to ensure that it conforms to its applicable Specifications or descriptions of the SOW (the “Testing Period”). The Deliverable shall be deemed accepted at the expiration of the Testing Period unless County provides Contractor with written notice that the Deliverable fails to conform to its applicable Specifications or description. In which case, Contractor shall be given a reasonable time, but in no event longer than ten (10) days, to correct such non-conformance and re-submit the Deliverable to County for re-testing. If after re-testing County determines in its sole, reasonable, discretion that the Deliverable still does not conform to its applicable Specifications or description, then County may either: (1) allow Contractor an additional ten (10) days to correct the non-conformance(s), in which case the same re-testing activities and County remedies will apply; (2) accept the Deliverable with the non-conformances and receive an agreed upon equitable adjustment to the fees charged County under the SOW; or (3) reject the Deliverable and receive a full refund of all fees paid for the Deliverable.

ARTICLE II - COMPENSATION

D. Contractor will be responsible for any personnel it may assign to provide Deliverables to County. Personnel furnished by Contractor shall be and will remain Contractor's employees, and under no circumstances are they to be considered County's employees or agents.

For purposes of this contract, the term, "offshore" refers to any area outside the contiguous United States, Alaska or Hawaii.

ARTICLE VI-INDEPENDENT CONTRACTOR

Contractor and the County shall, at all times, be deemed to be independent contractors and nothing herein shall be construed to create or imply that there exists between the parties a partnership, joint venture or other business organization. Contractor shall hold no authority, express or implied, to commit, obligate or make representations on behalf of the County and shall make no representation to others to the contrary.
