

Building Permit

Wish list:
Online inspection request

Method of tracking application submittal (completeness)

Method of tracking "Plan Review", confirming each necessary component has been signed off.

Currently able to group multiple permitting/inspection processes as a "project" in Tidemark

MUST HAVE:
IVR or website submitted tied to "real" schedules. (Don't allow over booking, 50 inspections in 1 day, etc.) We do already have this functionality.

If fees aren't paid, no permit can be issued

Currently implementing automated follow up process. (includes letters, fees, site visits, potential legal action, etc.)

NOTE
