

# Risk Based Food Inspection

- Wish List:
- Take notes during inspection on tablet and automatically generate the report
  - Method of tracking when follow ups are need to be conducted
  - Automatic invoicing (2<sup>nd</sup> follow up, etc.)
  - Email reports, electronic signatures
  - Method of tracking repeat violations
  - Include photos during inspection

NOTE 1: File reviewed for...

- List of violations/uncorrected violations that were cited at last inspection.
- Possible enforcement actions that may occur if repeated violations are found or enforcement follow up since last inspection.
- Any complaints or foodborne illness issues since last routine inspection.

**Important: Must allow restaurant inspection results to be on the web. Currently, we upload data approximately every two weeks and sent to Sword Solutions, which hosts the data on their website. We link to that site.**
