NEW BUSINESS

a. Deliberations toward 2022 Washtenaw County Apportionment Plan

Commissioner McClary asked for clarification as to the benefit of a center of the city district for Ann Arbor proposed by Sam Copi during public comment.

Commissioner Savit spoke in favor of a center city district for Ann Arbor, stating this district would provide renters and students representation for their issues which can differ from homeowners and long-term residents.

Vice Chair Frey agreed with Commissioner Savit's statement about ensuring students have their own representation for their own issues.

Chair Kestenbaum discussed interpretation of MCL 46.404(g) which states, "Residents of state institutions who cannot by law register in the county as electors shall be excluded from any consideration of representation." Lawrence Kestenbaum stated the impact of this statute is that those who are incarcerated should be excluded from the proposed plans, which affects York Township and Pittsfield Township. He clarified this is not to take away representation from a jurisdiction, but to conform with state law for county apportionment.

Commissioner Savit concurred with Chair Kestenbaum's interpretation of MCL 46.404(g).

Commissioner McClary asked for clarification excluding incarcerated individuals from county apportionment decisions is state law and is not optional.

For clarification of the impact of MCL 46.404(g), Chair Kestenbaum proposed that county staff determine the total number of incarcerated individuals by jurisdiction and publish the information online.

Commissioner Savit provided a legal interpretation of MCL 46.404(g), noting the statute's language pertains to county apportionment at state institutions, specifically. Commissioner Savit clarified this could allow for counting of those incarcerated in federal or county institutions for county apportionment purposes.

Commissioner McClary suggested that GIS Developer Chelsea Rozek work with Commissioner Savit and Chair Kestenbaum to revise maps in such a way that excludes the smallest number of incarcerated populations allowable.

Commissioner Savit stated he would communicate with other county prosecutors to gather their interpretations of MCL 46.404(g) and would publish a memo prior to the next Apportionment Commission meeting.

Chair Kestenbaum clarified that according to the previous motion passed during the meeting, the Washtenaw County Apportionment Commission will not consider or publish maps submitted anonymously.

Chair Kestenbaum stated that staff will need time to analyze precinct splits in proposed maps so that the Apportionment Commission can comply with MCL 46.404(f), which states that precincts shall be divided only if necessary to meet the population standard.

Commissioner McClary stated she would obtain information about the cost of increasing the number of commissioners on the board and would ask staff to publish this information online.
