Sec. 1000. Title

This regulation shall be known as the Washtenaw County Clean Indoor Air Regulation.

Sec. 1001. Authority

This regulation is hereby adopted pursuant to authority conferred upon local health departments by the Michigan Public Health Code, 1978 P.A. 368, MCLA 333.2441 and MCLA 333..2435 as amended.

Sec. 1002. Jurisdiction and Administration

A. This regulation shall have effect throughout Washtenaw County in all areas incorporated and unincorporated, which includes cities, villages, and townships.

B. The Health Officer shall have responsibility for administering and enforcing this regulation, including all amendments hereafter adopted unless otherwise specifically stated.

Sec. 1003. Purpose

A. Washtenaw County hereby finds and declares that:

1. Approximately 480,000 people die in the United States from tobacco-related diseases every year, making tobacco use the nation’s leading cause of preventable death. Tobacco use can cause disease in nearly all organ systems and is responsible for 87% of lung cancer deaths, 32% of coronary heart disease deaths, 79% of chronic obstructive pulmonary disease deaths, and 33% of all cancer deaths.

2. The U.S. Surgeon General concluded that there is no risk free level of exposure to secondhand smoke. In addition, separating smokers from nonsmokers, cleaning the air, and ventilating buildings cannot eliminate exposures of nonsmokers to secondhand smoke. Secondhand smoke is responsible for 50,000 deaths among nonsmokers each year in the United States. Exposure to secondhand smoke exposure causes lower respiratory tract infections, such as pneumonia and bronchitis, in as many as 300,000 children in the United States under the age of 18 months each year and worsens childhood asthma.

3. Beginning May 1, 2010, the Ron Davis Smoke Free Air Law went into effect, prohibiting smoking in most public places in Michigan. The law covers any workplace employing at least one person, and any licensed food service
establishment, including, but not limited to, restaurants, bars, shopping malls, bowling alleys, concert halls, arenas, museums, mechanic shops, health facilities, nursing homes, education facilities, and child care centers. Cigar bars, tobacco specialty retail stores, and the gaming floors of casinos may be granted exemptions from the Ron Davis Smoke Free Air Law.

4. Electronic smoking devices are used to deliver an inhaled dose of nicotine or other substances. Existing studies on electronic smoking devices’ vapor emissions and cartridge contents have found a number of substances known to cause cancer in humans, including formaldehyde, acetaldehyde, lead, nickel and chromium. Inconsistent labeling of specific components and nicotine levels in electronic smoking device produces exacerbates this issue. More than one study has concluded that exposure to vapor from electronic smoking devices may cause passive or secondhand exposure to product components.

B. Accordingly, Washtenaw County finds and declares that the purpose of this regulation is to protect the public health and welfare by regulating smoking, including electronic nicotine delivery systems, in public places and places of employment and recreation.
