Addendum #2

RFP No. 6609
Title: Structured Wiring Services
Due Date: Friday, April 22, 2011 at 2:00 PM

Category 6 e Wiring Specifications:

The cable should be compliant and certified to the latest ANSI/TIA/EIA 568B standards concerning both installation practices and performance. It would be good if the cable was compliant with the latest TIA/EIA 568-C standards released in 2009. However at the very least it should be covered by TIA/EIA 568-B.2.1

The County has in the past primarily used Comscope and Belden and would prefer these manufacturers. Alternate manufacturers would be acceptable if they met the above standards and quality displayed by the two manufacturers mentioned.
