

Washtenaw County Schools and Childcare Centers

Communicable Disease Reporting 2017-2018

September 2017 – June 2018

Schools and child care centers play an essential role in surveillance of communicable diseases, like influenza and norovirus, among children which helps forecast these diseases in the larger community. This report lists schools and child care centers who have submitted at least one mandated weekly communicable disease report over the 2017-2018 school year (September 2016 to June 2018).

***Star Reporters:** These schools have submitted more than half of the required weekly reports on time.
